What is the status for your policy on the present D1S issue?

Dear Johannes,

I, personally, understand the situation and agree with you.

Please hold your step and be a little more patient with me.
I'll further talk to my boss right away, try to have him understand more and then do something more (by supporting full amount US\$2,726).
We do want to expand cooperation with you, too.

I'll get back to you within today Taiwan time.
Thank you in advance for your understanding and patience.

Best Regards,

Victor Chung
